

Get on board with a world-class Intranet solution

At Insight, we define, architect and implement Digital Solutions that help Australian organisations enhance their employee engagement, collaboration and productivity.

Valo Intranet Solution

Valo Intranet is a ready-to-go solution that is perfect for organisations with an existing investment in Office 365 or SharePoint, and looking for a cost effective and quick to implement modern intranet solution whilst leveraging existing IT investments.

As an award winning boxed solution, Valo intranet has an attractive presentation layer, compatible with any device and has several optional add-ons including Workspaces, Social Hub, People Finder, Latest Video, Admin Toolpack, Delve Blogs, Idea Management and Multilingual.

Key Benefits

- Faster implementation compared to customised solutions
- Immediate product to evaluate and suggest modifications & improvements
- Highly supported solution with over 200 customers globally
- Leverages the broad suite of capabilities within Office 365 from a central portal
- Continually evolve and keep up to date with Valo Fresh subscription

Insight can help you transform the way your staff access information and collaborate, any time, anywhere.

Detailed Branding and Visual Design			✓
Detailed IA and Permission Planning			✓
Data Migration Planning and Support			✓
Intranet Governance			✓
Detailed Training and Documentation			✓
Additional 40 hours draw-down support			✓

Prerequisites

Insight's implementation solution is based on your organisation having a SharePoint Online or SharePoint 2013/2016 onpremises environment accessible to all users within your organisation.

Insight can potentially conduct reconfiguration or remediation activities if your organisation does not meet this prerequisite.

Pricing Options

Based on the in-scope activities at each service level, dependent on number of users, Insight offers the solution at the following competitive price points. Insight has also made available service add-ons should you require additional activities to meet your full organisational requirements.

SERVICE LEVEL	PRICE (EX. GST)
Small Business Level	\$25,000
Small to Medium Enterprise Level	\$80,000
Enterprise Level	Contact us for more information

Ongoing Investment

The ongoing licensing investment for the Valo Fresh subscription is 25% of the initial license costs per year. All service level offerings include the Valo Fresh subscription for 3 months. After those months are complete, subscription costs are invoiced yearly in advance.

Insight will also provision service hours to facilitate the installation and configuration of up to 4 releases per year. To ensure flexibility, if you wish to remove the Valo Fresh subscription, this can happen any time.

SERVICE LEVEL	ANNUAL SUBSCRIPTION PRICE (EX. GST)
Small Business Level	\$25,000
Small to Medium Enterprise Level	\$80,000
Enterprise Level	Contact us for more information

To maximise your IT investments, Insight would be happy to discuss how we could bundle these ongoing subscription costs into a broader support service to meet your needs. If your organisation is interested in a different mix of users, modules or service add-ons, Insight would also be happy to tailor a package that suits your requirements.
